

I have multiple xm receivers. They were purchased for me to make the choice of what I listen to. The ability to access weather and traffic reports instantly and nationally is vital to me in that I travel often. Having one source is easier than searching for unknown stations out of my area. I believe this should be available for any brand of satellite brand. Please reject 04-160 as I believe it restricts freedom of speech and my rights as a consumer for my choice.
